Facilities authorized to process soils contaminated with virgin petroleum products are required to have a Permit to Operate issued by the Air Resources Division, and a Groundwater Release Detection Permit and a Standard Permit for a Processing/Treatment Facility, both issued by the Waste Management Division. Further information regarding the above permits may be obtained from the Air Resources Division at (603) 271-1370 and the Waste Management Division at (603) 271-2925.

Revised 12/29/00
